---

## PROFESSIONAL SUMMARY

Remote-ready Data Analyst with strong experience in **business analytics, financial reporting, auditing, and IT development**. Skilled in **SQL (14+ years), Power BI, Tableau, Python, Excel, and AWS (in-view)**, with proven ability to work independently and collaborate with distributed teams. Adept at transforming raw data into actionable insights, automating reporting processes, and improving operational workflows. Seeking a **fully remote data analyst role** to deliver data-driven solutions that support business decisions.

---

## CORE SKILLS

**Data Analytics:** SQL, Excel (Advanced), Power BI, Tableau, Python (Pandas, NumPy, matplotlib, Plotly)  
**Cloud & Databases:** AWS (S3, Glue, Lambda **in-view**), MySQL, Oracle, MS SQL Server  
**Business Expertise:** Financial analysis, audit analytics, reporting automation, compliance  
**Technical Skills:** PHP, Web development, MySQL, API integration  
**Remote Strengths:** Asynchronous communication, digital collaboration, documentation, self-management

---

## PROJECTS

### Sales Analytics Automation (SQL + Power BI)

- Built a complete sales analytics solution using SQL and dynamic Power BI dashboards.
- Automated data refresh and reporting, enabling remote teams to access insights in real time.
- Presented findings virtually with documentation and KPI summaries.

### Operational Efficiency Dashboard (Tableau)

- Created dashboards to monitor business KPIs and identify bottlenecks.
- Improved decision-making for remote stakeholders with interactive visualizations.

### COVID-19 Global Data Analysis (Python)

- Cleaned and analyzed large datasets using Python.
- Published results with clear charts and documentation accessible to distributed teams.

### AWS Data Pipeline (S3, Glue, Lambda, Amazon Athena) (*In-view*)

- Designing a remote-friendly pipeline for automated ingestion and cleaning. (In-view)
- 

## PROFESSIONAL EXPERIENCE

### Data Analyst

#### 2023 – Present

- Designed interactive dashboards in **Power BI** and **Tableau** for remote KPI monitoring.
- Executed analytics workflows using **SQL, Python, and Excel**, improving operational decisions.
- Optimized SQL queries and data models, cutting report refresh time by **40%**.

- Collaborated virtually with stakeholders through digital tools to translate requirements into solutions.
- 

## Audit & Accounting Officer — Sulaimon & Co. (Chartered Accountants and Business Advisers)

**2008 – 2015**

- Performed accurate **bank reconciliations**, ensuring 100% alignment with internal records.
  - Produced **cashbooks, trial balances, and final accounts**, reducing month-end close by **30%** using advanced Excel.
  - Supported audits by preparing structured schedules and documentation.
  - Represented clients at **FIRS** and **SIRS**, ensuring compliance and timely tax clearance.
  - Delivered accurate, client-focused financial reporting.
- 

## Software & Web Developer — Hutsoft Technologies (Nigeria)

**2015 – 2021**

- Developed multiple websites and collaborated on web applications using PHP and MySQL.
  - Built data-driven application features and improved system performance.
  - Worked with distributed teams using digital tools for planning and deployment.
- 

## EDUCATION

### **B.Sc. in Business Administration**

Ajayi Crowther University | 2023

Associate Degree (Higher National Diploma) | 2005

---

## CERTIFICATIONS

- Oracle Database Certified Professional (OCP DBA) — 2007
- 

## REMOTE WORK CAPABILITIES

- Strong written and verbal communication for asynchronous teams.
  - Able to work independently with minimal supervision.
  - Comfortable with remote deadlines, documentation, and digital collaboration.
- 

## ADDITIONAL INFORMATION

- Extensive experience with web applications and backend data workflows.
- Deep understanding of financial statements, audit processes, and business operations.
- Able to bridge technical and business requirements effectively.
